

# Making the most of our device

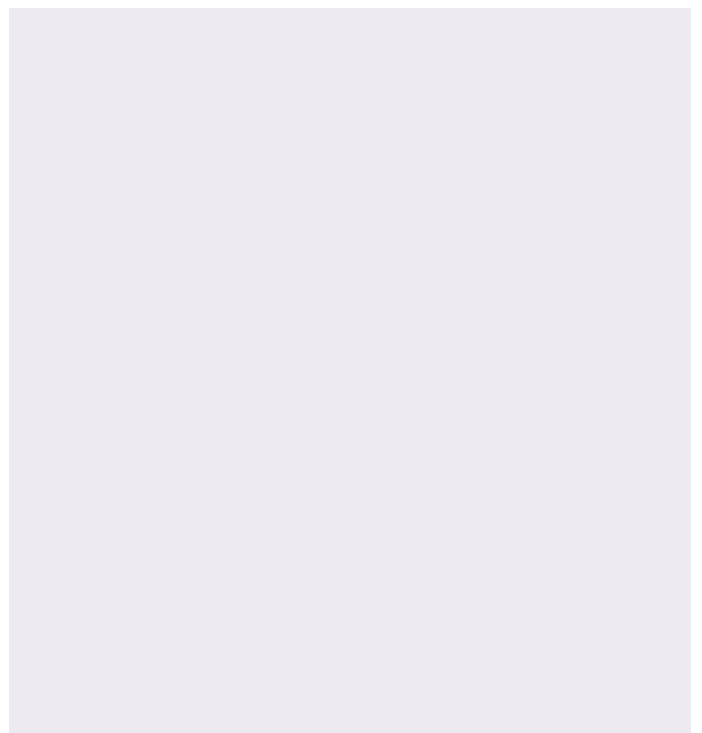

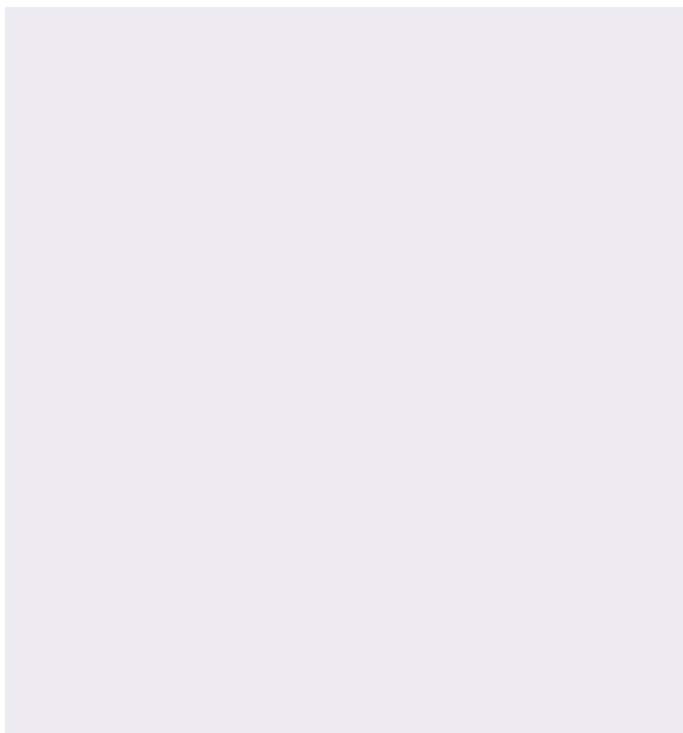

Age UK has a range of devices that you can use to help you stay connected with your family and friends. We can help you to get the most out of your device and make the most of the services we offer. We can help you to:

This sheet will:

1. Help you get your device set up so it works for you.
2. Help you download apps.
3. Help you use your device to make and receive video calls.

## Setting your device up so it works for you

### Getting started

**Your sight.** You can use VoiceOver, a screen reader that reads out loud what's on your screen. You can also use Zoom, which enlarges text and other content on your screen.

**Your hearing.** You can use Live Speech, which lets you speak directly into your device and have your words appear on the screen. You can also use Live Captions, which provides captions for audio content. (Live Captions is available on select devices.)

**Your dexterity and mobility.** You can use Switch Control, which lets you use your device with a single finger or a switch. You can also use AssistiveTouch, which lets you use your device with a single finger. You can also use Guided Access, which lets you lock your device to a specific app.

## Detailed instructions and videos

Want to learn more about accessibility on your device? Visit [support.apple.com](https://support.apple.com) for detailed instructions and videos.

For more information, visit [support.apple.com](https://support.apple.com).
